

Karen Brown
Teaching Assistant

I have worked at Winsor Primary since 2002 and I have seen how the school has evolved and improved over the years. I feel that as a school we are focused and on the right path to taking the children on their learning journey till their transition to secondary school.

I am fortunate as my role is so varied: I support SEN children in class during Maths, English and Reading. At lunchtime I support a child who needs guidance on behaviour. During the afternoon I support a small group delivering a programme aimed at their needs. Then I work 1:1 with a couple of children delivering intervention programmes that have been designed by specialist agencies like Dyslexia Support. I also deliver Maths Intervention to children in Year 6 who find the subject difficult or who have been absent and need to catch up.

The best part of my job is when I've helped a child and they suddenly see how to do the work correctly. Their smile says it all. I feel such a sense of achievement as I'm helping that child to grow and learn.
